RALEIGH ON THE RISE

The City of Oaks is thriving. Ranked the #1 City for Economic Growth in the U.S., Raleigh is a hotbed for technology, entrepreneurship, and culture. The influx of creatives and up-and-comers in their respective fields numbers over 30,000 new residents moving to Raleigh in the last year. For businesses, students, residents and visitors alike—Raleigh is a great place to be.

Raleigh draws folks who like to work hard and play hard. It's home to craft breweries, James Beard-award winning chefs, and five major museums covering art, natural sciences and history. Sports fans can take their pick of hockey, baseball, soccer, basketball, football, and the list goes on. Plus, with over 180 miles of greenways and 9,000 acres of parks, Raleigh is full of opportunities to explore the great outdoors.

This generation in the workforce has their eyes wide open. They know innovation and new ideas don't have to occur in a traditional work environment, and they don't expect to create in one. Big ideas happen everywhere—on a walk, in a chance meeting with a friend at a concert, in a shared workspace. The catalyst for a breakthrough could happen over a beer, or while taking in public art.

What comes next? Unique and dynamic spaces that foster interaction to appeal to the industries and innovators that are drawn here.
